SEMINAR PROGRAMME

In a two-day seminar Centropa would like to strengthen the knowledge about the history of the Jewish communities in Germany, Greece, Poland, and Serbia. In addition to short lectures, the participants will work in small groups with biographical texts and films.

Participants are invited to develop possible applications for their own lessons based on the materials presented.

Against the backdrop of the European dimension of the Holocaust, we will also discuss which antisemitic myths and resentments still occur today in everyday school life and how they can be effectively countered.
