SEMINAR PROGRAMME

Various international experts will speak at the seminar on important topics related to antisemitism and Jewish culture and life, as well as on how to approach this topic in education. To prevent further distortion and denial of the Holocaust, we turn to archivists, teachers, librarians and museum workers who have relevant historical material and can contribute to the fight against false information.

Seminar participants will have the opportunity to talk to experts who will instruct them on how to use material such as educational graphic novels and testimonies of survivors in education.
